Career Objective

Motivated and detail-oriented graduate seeking an entry-level position where I can apply my technical and problem-solving skills while contributing to organizational growth and gaining professional experience.

Technical Skills

Languages: Java, Core Java, HTML, CSS, JavaScript

Frameworks/Technologies: JDBC, Hibernate, React

Databases: MySQL

Soft Skills: Strong Communication

Projects

Library Management System | Spring Boot, JPA, Hibernate, MySQL

- Developed a full-stack Library Management System using Java, JSP, Servlets, and Hibernate for backend logic and server-side rendering.
- Used Hibernate ORM to manage database interactions, simplifying data persistence and entity relationships with MySQL.
- Integrated Hibernate with JSP to dynamically display and update data on the web pages.
- Implemented full CRUD functionality for managing books and users with smooth data flow between UI and database.

QTrip – Website Clone | HTML, CSS, JavaScript, React

- Cloned key functionalities of a Q&A social platform.
- Built responsive UI with HTML, CSS, and React components.
- Implemented and user interaction logic using JavaScript and React hooks.

KFC Clone – Responsive landing page | React, React Router

Developed a responsive KFC front-page clone showcasing the main navigation, and dynamic menu preview.

Ensured mobile-first design and optimized the page for fast loading.

Used React Router for navigation between pages (Menu, Deals, etc.).

IoT based safety system for mining workers

IoT based safety system for mining workers to design IoT helmets to detect if there is any threat to the mining workers. It also detects the harmful gases or nay temperature changes that are happening around the surroundings.

Awards & Achievements

- Participated in workshop based on Antenna design using HFSS
- Achieved a certificate of Appreciation for participating as a volunteer in stan2k23 fest
- Member of ISO (Instrument society of India)
- Achieved a certificate for completing 50hrs RPA automation

Education

Stanley College of Engineering Technology for Women

Bachelor of Engineering in Electronics and Communication (CGPA- 8)

Oct 2020 – Jun 2024

Abids, Hyderabad
